ANALYTICAL CHEMISTRY LABORATORY MANUAL

ANALYTICAL CHEMISTRY LABORATORY MANUAL FOR BACHELOR OF SCIENCE IN BIOLOGY MAJOR IN BIODIVERSITY

Author

ASTRID G. GERONGAY

Faculty, General Education
College of Mathematics, Arts, and Sciences
Davao del Sur State College
2026

TABLE OF CONTENTS

	Page No.
Title Page	i
Author Page	ii
Preface	iii
Student Information	iv
Table of Contents	v
Course Overview	vi
Laboratory Orientation	vii
Score Log	ix
 Laboratory Exercises	 1
Exercise 1 – Fundamentals of Measurement and Quantitative Calculations	2
Exercise 2 – Stoichiometry	5
Exercise 3 – Preparation of Reagents	7
Exercise 4 – Equilibrium Constant Expression, Errors and Basic Statistical Analysis	10
Laboratory Experiments	12
Experiment 1 – Qualitative Analysis of Acids and Bases	13
Experiment 2 – Preparation of Solutions	16
Experiment 3 – Preparation and Standardization of Basic Titrants	21
Experiment 4 – Preparation and Standardization of Acidic Titrants	26
Experiment 5 – Acetic Acid Determination in Vinegar Samples	30
Experiment 6 – Determination of Chloride ions in Water Samples by Precipitation Titration	35
Experiment 7 – Determination of Carbonate and Bicarbonate in Water Samples	39
Experiment 8 – Moisture Content and Dry Matter Determination of Food Samples by Gravimetric Method	42
Experiment 9 – pH and Electrical Conductivity Analysis of Water Samples Using Potentiometric and Conductivimetric Methods	46
References	49
Appendices	50
Grammarian's Certificate	51
Course Outline	52
Approved Syllabus	53
